

## Who are AccessPlanit

AccessPlanit, established in 2001, is an independent software house dedicated to the development and support of learning and training management solutions. With more than eight years experience in the software market, we have a clear understanding of how to help organisations implement our systems to ensure they get the maximum return on their investment.

Using the latest web based technology, we deliver flexible solutions to a diverse range of companies and industries.

### Why we do it better:

We know that our customers demand products that are easy to use, incorporate the best available technology and provide the same level of support that they look to provide in their own organisations. That's why we focus on giving our customers the tools that solve real problems and a support service that they can rely upon.

### Our clients:

Our emphasis is on providing high levels of customer service and support combined with our cutting edge technologies has enabled us to maintain a client retention rate of over 95%. Our clients include local authorities, corporate companies and privately owned enterprises.

### Our Products:

All of our products are developed using the latest Microsoft .NET technologies and are supplied on a hosted basis.

Our solutions include:

- **Learning Management System**
- **Course Booking and Training Administration Software**
- **Rapid e-learning Authoring Tool**
- **Bespoke e-learning Content**
- **Off the Shelf e-learning Content**

Quite simply our philosophy is:

“To provide our customers with leading edge solutions that are easy to use, quick to deploy and offer exceptional value for money”.

## Testimonials

### What our customers think of us

“ The implementation was handled very professionally and went very smoothly. Communication during the process was excellent and any amendments we requested were done quickly and capably ”

“ The one day training was superb and all of our staff were able to pick up the necessary skills in order to implement the system on a daily basis ”

“ Ongoing support has been superb and all of our queries have been dealt with rapidly. We have been able to iron out any problems very quickly, making the system more efficient and practical for our use ”

*Brian Marum, London Corporate Training.*

“ The service is great! Everyone you deal with at AccessPlanIT knows you, and is willing to please. The welcome to the AccessPlanit family has been great, and we look forward to many years of mutually beneficial business ”

“ We were really impressed with AccessPlanit's prompt response to our web contact request, and their willingness to engage with us. It was this drive and passion that ultimately carried weight in our decision to purchase Course Manager from AccessPlanit ”

*Russell Steyn, Foster Melliar.*

“ They have a great attitude to their system. We wanted to tailor our system to suit our clients. By working closely with Accessplanit we were able to achieve this ”

“ The service has been fantastic, it feels personal and we have never come up against any issues that have not easily been resolved ”

*Zoe Peters, Mace Business School.*

“We aim to deliver an excellent service as well as an aftercare scheme to help our clients get the best from what they do”

“ We liked AccessPlanit as a company and knew we would be able to build up a good relationship with them. Everyone has an excellent understanding of their system and were able to show how it could be shaped to our specific needs ”

“ Ultimately we like the “can-do” attitude: throughout the process AccessPlanIT have been very positive and have bent over backwards to help us achieve our goals ”

“ Overall the service has been extremely positive. In all encounters AccessPlanIT have been very helpful, friendly and professional ”

*Jo White, London College of Arts.*
